

Work Process :

Raw material automatic feeding, key shape punching, automatic unloading.

Product Description :

This machine is an automatic equipment developed for making key blanks. Equipped with hydraulic driven, the machine has the advantages of high pressure, stable feeding, and convenient adjustment. Can fully meet the requirements from different customers.

Quick Details :

- Work Material: Brass, Iron
- Processing Range: Key
- Work Efficiency: 100000-120000pcs/8h
- Machine Size: 1.5L*1.1W*2.4H(m)
- Machine Weight: 1000kg
- Machine Tonage: 45 Ton
- Air Pressure: 0.4-0.6mpa

Machine Configuration:

No	Main Accessory Name	Brand Name
1	Computer Controller	Germany Siemens
2	Pneumatic Accessories	Germany Siemens
3	Electrical Accessories	Germany Siemens
4	Ball Bearing	Germany Siemens
5	Servo Motor	Germany Siemens
